What is the Impulse Programme?

Impulse serves as a catalyst for entrepreneurship in individuals and organisations. The programme is about strong action learning and result driven where participants bring their innovative ideas to the table. It acts as a learning vehicle with a sharp focus on prioritising and developing “high-potential” business cases. The core of Impulse’s approach is to engage experienced entrepreneurs to act as role models and to provide guidance at the heart of the Cambridge Phenomenon.

“Our Entrepreneurial Advisory Board

The Impulse Programme provides a totally different learning environment for researchers and scientists enabling them to reach their full potential and develop their ideas. The involvement of real business practitioners, with industry knowledge and experience, together with the West Cambridge community sets this programme apart.”

– Prof Sir Richard Friend, Founding Director of the Maxwell Centre

“As a female entrepreneur, I have found the whole ecosystem created by the Impulse programme highly inclusive and motivating, both for one’s own growth and for the growth of an idea and its transformation into a start-up business. It has also been an invaluable opportunity to get to know like-minded people and to receive mentorship and guidance from high stake entrepreneurs.”
